PROJECTS

MY PORTFOLIO

Web : nipunnishamaheeka.me

Green Shadow(PVT)

Monitoring System

Developed a Crop Handling and Monitoring System using Spring Boot, MySQL, and JWT for secure backend operations, with HTML, CSS, and jQuery for responsive frontend, enabling efficient crop management and real-time monitoring.

4Ever Chat

Chat Application

Built a real-time Chat Application using React, Firebase Authentication, and Firestore, enabling user profile creation and seamless messaging with a responsive interface powered by HTML, CSS, and JavaScript.

Libria

Library-Management-System

Developed a Library Management System using Java, JavaFX, HTML, CSS, and JavaScript, allowing users to browse, borrow, return books, manage user accounts, and efficiently handle book inventory with a user-friendly interface.

SE-10

Social Network Project

Contributed to the SE-10 Student Networking System by developing frontend interfaces using JavaScript, HTML, CSS, Bootstrap, jQuery, and Axios, enhancing user interaction and facilitating seamless networking between students in the platform.

POS

Pos System

Developed a POS System using Spring Framework, Hibernate, JPA, and MySQL, implementing efficient inventory and order management with a streamlined user interface, leveraging Lombok for concise and maintainable code.

4Ever Selling

E Commerce System

Developed an E-Commerce System for selling clothing using HTML, Tailwind, Vite, and React, integrating a secure payment gateway to enable smooth transactions and providing a seamless shopping experience for users.

EDUCATION

Graduate Diploma in Software Engineering

IJSE - Institute of Software Engineering
(March 2023 - Present)
